

TOP DOCTORS 2023

The annual Top Doctors issue of *Health Care Quarterly* recognizes some of the best doctors practicing in our region. Our goal with this publication is to provide a comprehensive list of peer-recommended physicians, so when you need medical care, you have somewhere to turn to find the very best that Southern Nevada has to offer. We know what a difference it makes to have a doctor you can trust with your health. This guide includes more than 100 physicians from 39 different specialties. There is a Top Doctor for any need, disease or injury. We are honored to bring recognition to these individuals who do so much to bring quality care to our community.
